INDEX

Eugenics Quarterly, Volume 12, 1965

ABERRATIONS, chromosomal, 37, 121
Abilities, mental, hereditary components of, 265
Abnormality, physical, genetics of, 264. *See also* Anomalies, Defects, Handicaps, Malformations.
Age
  maternal, and congenital malformations, 178
  paternal: and attitudes toward birth control in E. Pakistan, 221; and child handicaps and death, 179; and desire for children in E. Pakistan, 215–216
  and religion, 104
Ahmed, F., 209–226
Ahmed, M., 209–226
Allard, R. W., 119
Allen, G., 36–39, 41, 54, 57, 62, 119–121, 177–180, 181–198, 263–266
Amish, genetic studies of, 38
Anderson, U. M., 263
Anemia, hereditary, detection of, 120
Angioneurotic edema, hereditary, detection of, 177
Anomalies, congenital: effect of birth order on, 90–101. *See* also Abnormality, Defects, Handicaps, Malformations.
Austen, K. F., 177

BAILAR, J. C., III, 146–153
Bannerman, R. M., 263
Barrai, I., 119
Bearn, A. G., 264
Behavior and assortative mating, 45, 47
Beierwaltes, W. H., 121
Berelson, B., 254
Biometerics, 47, 85–89
Birth control, 49–50
  attitudes toward in E. Pakistan, 218–221; by education, 218–219; by family size, 220–221; by income, 219; by marriage duration, 221; by number of ever-born children, 221; by number of living sons, 221; by occupation, 219; by paternal age, 221
  See also Contraception, Contraceptives, Family planning.
Birth date and congenital malformations, 146–153
Birth order: effects of, environmental vs. genetic causes, 90–101; relation to infectious disease, 97–98; significance of intervals between, 251–253
Births, unwanted. *See* Fertility, excess.
Blackwood, H. J. J., 32
Blood constituents, abnormal, routine screening for in infants, 263
Blood pressure and blood type, 39
Bodmer, W. F., 41, 50, 51, 52, 54, 56, 57, 58, 59, 62, 63, 65, 85–89, 178
Body size and inbreeding, 45
BOOK REVIEWS, 30–35, 114–118, 167–176, 254–262
Bayko, H., 33
Bradshaw, A. D., 257
Bray, P. F., 37
Breathing ratio, hereditary factors in, 7–10
Brues, A., 36
Burnet, M., 121

CAMPBELL, A. A., 41, 124
Catz, B., 37
Cavalli-Sforza, L. L., 41, 48, 52, 54–55, 58, 59
Census data: and genetic demography, 85; incomplete, 44–45, 88
Children
  desire for in E. Pakistan; by education, 216; by income, 216–217; by marriage duration, 215; by number of ever-born children, 212; by number of living children, 212; by number of living sons, 212–215; by occupations, 217–218; by paternal age, 215–216
  unwanted: psychological effects on, 13. *See also* Fertility, excess.
Chromosome exchanges, inducing of, 120
Chromosomes: aberrations of, 37, 121; and chromosome segments, differentiating, 179; mapping, 178; for mongolism, identification of, 179; sex, ring-shaped, and DNA synthesis, 265
Clark, P. J., 7–10, 102–111
Coale, A. J., 41, 51, 53–54, 55, 57, 58, 59, 61, 62, 63–64, 65, 66, 68
Cohen, M. M., 120
Color blindness, selection against, 28–29
Compensation, reproductive, definition of, 44
Computers and genetic demography, 47, 85–89
Conceptions, unwanted, psychological effects of, 11–18. *See also* Fertility, excess.
Consanguinity, 48–49, 178; by country, 75; and growth, 38; and mental defect, 119–120; and migration, 119–120. *See also* Inbreeding.
Contraception
  choice of method by race, 129
  prevalence of by race: by education, 129; by region, 128–129
  See also Birth control, contraceptives, Family planning.
Contraceptives, 49–50; effect of I.U.C.D. on mother and child, 112–113; genetic effects of I.U.C.D.—gestated offspring, 112–113; popularity of I.U.C.D. in Taiwan, 245–250. *See also* Birth control, Contraception, Family planning.
Cook, R. C., 33
Correlation, definition of, 181–182
Crow, J. F., 199–203
Cruz-Coke, R., 39
Cuatrecasas, P., 177
Cystathionine synthetase deficiency, 37

DANES, B. S., 264
Darlington, C. D., 257
Data processing, 47, 85–89
Day, R. W., 179
Defects
  hereditary, 38. *See also* Abnormality, Anomalies, Malformations.
  mental: and consanguinity, 119–120; effect of migration on, 119–120
Demeny, P., 41
Demography, 41–71; relation to population genetics, 48, 62–63, 63–66, 72–84, 85–89; statistical problems of, 47–48
Diabetes and multifactorial inheritance, 119

Dice, L. R., 102–111
Dictotherapy, 37
Discrimination learning in infants, 265
Disease
  childhood, effect of paternal age on, 179
  estimation of heritability, 263–264
  hereditary: in Jews, 162–164; routine screening for in infants, 263
  relation to birth-order, 97–98
  and somatic mutation, 121
DNA, 179, 265
Dobzhansky, T., 255
Down's syndrome. *See* Mongolism.
Duggan, H. E., 263

EAST PAKISTAN, male attitudes toward family planning in, 209–226
Education: and age at marriage, 4; and attitudes toward birth control in E. Pakistan, 218–219; and desire for children in E. Pakistan, 216; and family planning by race, 131; and fertility by race, 126; and prevalence of contraception by race, 129; and religion, 104–105
Ellis-van Creveld syndrome, estimating segregation ratios of, 264
Environment and birth-order, 90–101
Enzyme defects in hereditary anemia, 120
Enzyme deficiency: cystathionine synthetase, 37; glucose-6-phosphate dehydrogenase, 177; lactase, 177
Epilepsy, 37
Equilibrium, Hardy-Weinberg. *See* Hardy-Weinberg equilibrium.
Erlenmeyer-Kimling, L., 123
Eugenics, applied, 67–71; deceits of, 69–70
Evans-Pritchard, E. E., 117–118

F, limiting and meaningful values of, 186–189
Falconer, D. S., 263–264
Falek, A., 30–31, 123
Family planning, 67–71
  male attitudes toward in E. Pakistan, 209–226
  and race, 124–131; by education, 131; by region, 130–131
  in Taiwan, 233–250
  See also Birth control, Contraception, Contraceptives, Family planning programs, Fertility.
Family planning programs, publicity methods of in Taiwan, 240–242, 243–245, 247–250
Family size: and attitudes toward in E. Pakistan, 220–221; and desire for children in E. Pakistan, 212–215; inadequacy of for estimating *R*, 53–55; relation to parents' intelligence, 81–82. *See also* Fecundity, Fertility, Natality.
Favism, 177
Fecundity: definition of, 42–43; by race, 127. *See also* Family size, Fertility, Natality.
Fellowships, AES, 63–66
Fertility, 178
  and census data, 86
  and church attendance, 108
  definition of, 42–43
  effect of cultural patterns and occupation on in India, 137–145
  excess: definition of, 19–27, 165–166; psychological effects of, 11–18
  and race, 124–131; by education, 126; by region, 125
  and religion, 102–111
  in Taiwan, 233–250
  See also Family size, Fecundity, Natality.
Fibrocystic pulmonary dysplasia, genetic cause of, 178
Finkelstein, J. D., 37
Fish, B., 120
Fisher's theorem of natural selection, 86; definition of, 43
  finition of, 43
Fitness, definition of, 43
Freedman, R., 114, 233–250

GALVANIC SKIN RESISTANCE, hereditary factors in, 7–10
Gargoylism, distinguishing heterozygous carriers of, 264
Gene frequency, 45, 46; effect of geography on, 178
Genes: measuring effects of in small variation, 119, and schizophrenia, 121
Genetic characters, desirable, deceits of, 69–70
Genetic drift: and heterozygosity, 190–191; and migration, 194
Genetic load, 36; increasing, 59; limits of, 60–62; relaxation of, definition of, 44
Genetics, 41–71; in Greece, effect of geography on, 178; and preventive medicine, 263
Genotype frequency, 45, 46, 47
Gilbert, R. I., 102–111
Gittelsohn, A. M., 178
Glass, B., 31–32
Glass, H. B., 41, 52, 55, 58, 60, 63, 65, 67, 70
Glucose-6-phosphate dehydrongenase deficiency, 177
Greep, R. O., 116
Growth and consanguinity, 38
Grüneberg, H., 36
Gurian, J., 146–153

HAEMOSIDEROSIS, IDIOPATHIC, hereditary transmission of, 264–265
Hajnal, J., 41, 56, 60, 62–63, 69–70
Haldane, J. B. S., 264
Hall, M.-F., 260–262
Hammons, H. G., 254–255
Handicaps, congenital: effect of birth-order on, 90–101. *See also* Abnormality, Anomalies, Defects, Malformations.
Hardin, G., 114
Hardy-Weinberg equilibrium, 45, 190; definition of, 43
Harkavy, O., 33–35
Harris, H., 180
Heartbeat, hereditary factors in, 7–10
Hecht, F., 121
Heritability, definition of, 43
Heterkaryons, artificial, 180
Heterozygosis, 45, 46; amount of in isolate, 189–192; and genetic drift, 190–191
Homocystinuria, 37
Homozygosis, 45, 46
Honigman, J. J., 117–118
Hsu, T. C., 179
Hurler's syndrome. *See* Gargoylism.
Hutt, F. B., 167
Huxley, J., 121

INBREEDING
in Amish, 38
and behavior, 45
concepts of, 181–183
definition of, 182–183
estimating coefficient of, 183–186
and growth, 38
and intelligence, 45
measurement of by isonomy, 199–203
nonrandom, 181–198, 204–208; reversal of, 193–194; separating components from random, 200–201
and physical traits: body size, 45; chest girth, 119; vision acuity, 45
and polygenic traits, 58–59
random, 181–198, 204–208; estimating deviation from, 194–197; separating components from nonrandom, 200–201
in small populations, 204–208
See also Consanguinity.
Income: and attitudes toward birth control in E. Pakistan, 219–220; and desire for children in E. Pakistan, 216–217; and religion, 105–106
India: differential fertility in, 137–145; population trends in, 154–161
Inheritance, multifactional: and diabetes, 119; and schizophrenia, 121
Intelligence: classification by, 73; and family size, 81–82; genetics of, 69–70; and inbreeding, 45
International Statistical Institute, 170
International Union for Scientific Study of Population, 168, 170
Intrauterine contraceptive device. *See* Contraceptives.
Isonomy and measurement of inbreeding, 199–203
Israel, differential mortality in, 227–232

JANOS, O., 265
Jarvik, L. F., 123
Jews: differential mortality in, 227–232; hereditary disease in, 162–164

KALLMANN, F. J., 123
Kantner, J. F., 172–174
Kaplan, A. R., 123–136
Kirk, D., 41, 51, 59, 61
Kiser, C. V., 41, 44–45, 72–84
Koch, B., 178
Krótki, K. J., 168–170, 170–172
Kunstadter, P., 41, 57

LACTASE, deficiency of 177
Levine, L., 257–258
Levins, R., 36
Lewit, S., 260
Lewontin, R. C., 41, 50, 51, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 64, 65, 68
Li, C. C., 264
Lockhart, L. H., 179

MACARTHUR, R., 41, 53, 57, 65–66, 68
Maddox, J., 31
Malformations, congenital: and birth date, 146–153; effect of maternal age on, 178; effect of paternal age on, 179. *See also* Abnormality, Anomalies, Defects, Handicaps.
Mange, A. P., 199–203
Maple syrup urine disease, 37
Marriage
age at, and correlates of, 1–6; and education, 4; and labor force, 2–4; and marital stability, 5; and premarital pregnancy, 1–2
consanguineous, by country, 75
duration of, and attitudes toward birth control in E. Pakistan, 221; and desire for children in E. Pakistan, 215
stability of: and age at marriage, 5; and race, 5
trends and differentials in: by age, 73–74; by country, 73; by education, 74; by race, 73; by socioeconomic status, 74
Mating, assortative, 75–78; and behavior, 45, 47; and cultural traits, 75; definition of, 43; and education, 76; and genotype frequency, 47; and heterozygosity, 191–192; and intelligence, 47; and natural selection, 47; and personality, 47, 75–76; and physical traits, 47, 75; and race, 76; and socioeconomic status, 76
Mating
nonrandom, 192–193
random: definition of, 43, 182; estimating deviations from, 207; in isolates, 192–193
Mating system, quantitative representation of, 194–197
McKusick, V. A., 38
Medicine, preventive, and genetics, 263
Mental illness. *See* Schizophrenia.
Migration: effect on fertility, by race, 126; effect on mental defect, 119–120; effect on prevalence of contraception, 128; and genetic drift, 194 and intelligence, 83
Milham, S., Jr., 178
Mitra, S., 154–161
Mongolism, 121; cytogenetics of, 265; identification of chromosome for, 179; and translocation, 179
Montagu, A., 172
Morbidity, perinatal, effect of birth-order on, 90–101
Morgan, K., 204–208
Morphism, genetics, and schizophrenia, 121
Mortality: causes of in Israel, 230–232; and evolution rates, 55–58; genetic implications of, 83; and nutrition in Israel, 231; and occupation in Israel, 231; perinatal, effect of birth-order on, 90–101; and personal hygiene in Israel, 229; and socioeconomic status in Israel, 227–232
Moss, M. L., 32–33
Mudd, S., 33
Muhsam, H. V., 227–232
Mutations, 36, 38; and chronic disease, 121; and hereditary orotic aciduria, 120; increasing load of, 59; and pyrimidine auxotrophism, 120; and radiation, 263

NATALITY, 55–58
definition of, 43
genetic basis of, 50–53
intragroup differences in, 80–81
trends and differentials in, 78–82; by education, 80; by intelligence, 81–82; by occupation, 79–80; by personality types, 82; by

Natality, trends and differentials in (*continued*) race, 78; by religion, 78–79; by socioeconomic status, 79–80; by urban-rural residence, 79
Newcombe, H. B., 90–101, 179
Ng, L., 33
Nofal, M. M., 121

Obesity, inheritance of, 38
Occupation: and attitudes toward birth control in E. Pakistan, 219; and desire for children in E. Pakistan, 217–218; and mortality in Israel, 231; and religion, 106–107
Olde, G. L., 263
Opitz, J. M., 174–176
Ordoñez-Plaja, A., 114
Orotic aciduria, hereditary, 120
Osborn, F. H., 41, 49–50, 51–52, 57, 58, 62, 65, 67, 68, 70–71, 165–166, 255–256
Osborne, R. H., 41, 59, 65

Panmixia, definition of, 182
Parker, N., 120
Periodical abstracts, 36–39, 119–121, 177–180, 263–266
Perrin, E. B., 41, 48, 61–62
Pfeiffer, R. A., 265
Physical traits and inbreeding, 119
Ploem, J. E., 264–265
Pohlman, E., 11–18, 19–27, 165–166
Polani, P. E., 265
Polygenes, 47; and consanguinity, 58–59
Polymorphism, 36
Population genetics, 178; relation to demography, 48, 62–63, 63–66, 72–84, 85–89; statistical problems of, 47–48
Population projections, new approach to, 154–161
Population trends in India, 154–161
Post, R. H., 28–29, 41–71, 65, 112–113, 162
Pregnancy: premarital, and age at marriage, 1–2; unwanted. *See* Fertility, excess.
Psychiatry: studies of twins. *See also* Schizophrenia
Psychology: of twins, 120; of unwanted conceptions, 11–18, 19–27. *See also* Schizophrenia.
Pyrimidine auxotrophism, 120

R, 53–55, 55–58; definition of, 43; limiting and meaningful values of, 186–189
Race
  and choice of method of contraception, 129
  and family planning, 124–131; by education, 131; by region, 130–131
  and fecundity, 127
  and fertility, 124–131; by education, 126; by region, 125
  and hereditary disease, 162–164
  and prevalence of contraception: by education, 129; by region, 127–129
Radioactivity: effect on chromosomes, 121; lack of effect on rats, 36; and mutation, 263
Rainier, J. D., 123
Rate of change. *See R.*
Ray, A. K., 264
Rayner, S., 119
Reed, S. C., 41
Rele, J. R., 1–6
Religion: and age, 104; and church attendance, 108; and education, 104–105; and fertility, 102–111; and income, 105–106; and occupation, 106–107
Renwick, J. H., 178
Research workers, need for training, 62–63, 63–66
Rhode, R. A., 37
Roberts, D. F., 178
Ryder, N. B., 41, 50, 56–57, 64, 65

Samuels, I., 7–10
Sank, D., 123
Saxena, G. B., 137–145
Schark, M. A., 38
Schizophrenia: as genetic morphism, 121; genetics of, 132–136; inconsistent diagnosis of, 132–136; prediction of in infants, 120
Schneeder, A. S., 120
Schulze, T., 178
Scott, J. P., 41, 51, 61, 65, 68–69
Scriver, C. R., 263
Selection, natural: and assortative mating, 47; and evolution, 36; Fisher's theorem of, 43, 86; index of opportunity for definition of, 44; relaxation of, definition of, 44

CONTENTS

Eugenics Quarterly, Volume 12, 1965

No. 1 (March)

SOME CORRELATES OF THE AGE AT MARRIAGE IN THE UNITED STATES, J. R. Rele 1
PSYCHOPHYSIOLOGICAL REACTIONS OF TWINS: HEREDITARY FACTORS IN GALVANIC SKIN RESISTANCE, HEARTBEAT, AND BREATHING RATES, Steven G. Vandenberg, Philip J. Clark, and Ina Samuels 7
RESULTS OF UNWANTED CONCEPTIONS: SOME HYPOTHESES UP FOR ADOPTION, Edward Pohlman, 11
BRIEF REPORT
"WANTED" AND "UNWANTED": TOWARD LESS AMBIGUOUS DEFINITION, Edward Pohlman .. 19
COMMUNICATION
SELECTION AGAINST "COLORBLINDNESS" AMONG "PRIMITIVE" POPULATIONS, R. H. Post 28
BOOK REVIEWS, Clyde V. Kiser, Book Review Editor
"MAN AND HIS FUTURE" (Wolstenholme, ed.), Arthur Falek 30
"REVOLUTION IN BIOLOGY" (Maddox), Bentley Glass 31
"PROCEEDINGS OF THE FIRST EUROPEAN SYMPOSIUM, SOMMERVILLE COLLEGE, OXFORD: BONE AND TOOTH" (Blackwood, ed.), Melvin L. Moss 32
"THE POPULATION CRISIS AND THE USE OF WORLD RESOURCES" (Mudd, ed.), Oscar Harkavy 33
PERIODICAL ABSTRACTS
GENETICS, Gordon Allen 36
"Theory of fitness in a heterogeneous environment. Part III" (Levins) 36
"The cost of evolution vs. the cost of not evolving" (Brues) 36
"Genetical research in an area of high natural radioactivity in South India" (Grüneberg) 36
"Homocystinuria due to cystathionine synthetase deficiency: The mode of inheritance" (Finkelstein, et al.) 37
"Maple syrup urine disease, with particular reference to dietotherapy" (Snyderman, et al.) 37
"Evidence for a genetic etiology of temporal-central abnormalities in focal epilepsy" (Bray and Wiser) 37
"Maternal transmission of a new group-C (6/9) chromosomal syndrome" (Rhode and Catz) 37
"Isolat et diffusion des mutations chez l'homme" (Sutter) 38
"Genetic studies of the Amish: Background and potentialities" (McKusick, et al.) 38
"Problems in the genetics of human obesity" (Withers) 38
"The effects of inbreeding on growth" (Schork) 38
"Effects of lucus MN on diastolic blood pressure in a human population" (Cruz-Coke, et al.) 39

No. 2 (June)

GENETICS AND DEMOGRAPHY: SUMMARY OF "WORKSHOP CONFERENCE" BETWEEN DEMOGRAPHERS AND POPULATION GENETICISTS, UNDER THE AUSPICES OF THE AMERICAN EUGENICS SOCIETY, OCTOBER 16–17, 1964, PRINCETON INN, PRINCETON, N.J.; R. H. Post, editor .. 41
TYPES OF DEMOGRAPHIC DATA OF POSSIBLE RELEVANCE TO POPULATION GENETICS. Clyde V. Kiser 72
A PROGRAM FOR GENETIC DEMOGRAPHY BASED ON DATA FROM LARGE-SCALE SOCIAL SURVEYS, Walter F. Bodmer 85
ENVIRONMENTAL VERSUS GENETIC INTERPRETATIONS OF BIRTH-ORDER EFFECTS, Howard B. Newcombe 90
RELATION OF FERTILITY TO RELIGIOUS AFFILIATION AND TO CHURCH ATTENDANCE IN ANN ARBOR, MICHIGAN, 1951–54, Lee R. Dice, Philip J. Clark, and Robert L. Gilbert 102
BRIEF REPORT
EUGENICS AND THE I.U.C.D.'s, R. H. Post 112
BOOK REVIEWS, Clyde V. Kiser, Book Review Editor
"POPULATION, EVOLUTION AND BIRTH CONTROL: A COLLAGE OF CONTROVERSIAL READINGS" (Hardin, ed.), Antonio Ordoñez-Plaja 114
"POPULATION: THE VITAL REVOLUTION" (Freedman, ed.), Warren S. Thompson 114
"HUMAN FERTILITY AND POPULATION PROBLEMS" (Greep, ed.), Irene B. Taeuber 116
"SOCIAL ANTHROPOLOGY AND OTHER ESSAYS" (Evans-Pritchard), John J. Honigmann 117
PERIODICAL ABSTRACTS
GENETICS, Gordon Allen 119
"Multifactorial inheritance: A possible hypothesis for diabetes" (Simpson) 119
"Testing a model of dominant inheritance for metric traits in man" (Barrai, et al.) 119

Contents

"The detection and measurement of the effects of individual genes involved in the inheritance of a quantitative character in wheat" (Wehrhahn and Allard) 119
"An investigation of the change in prevalence of mental deficiency in Sweden" (Rayner) 119
"Twins: A psychiatric study of a neurotic group" (Parker) 120
"The prediction of schizophrenia in infancy" (Fish, et al.) 120
"Hereditary orotic aciduria—Pyrimidine auxotrophism in man" (Smith) 120
"Hereditary hemolytic anemia with triosephosphate isomerase deficiency" (Schneider, et al.) 120
"Chromosome exchanges in human leucocytes induced by mitomycin C" (Shaw and Cohen) 120
"Persistent chromosomal aberrations following radioiodine therapy" (Nofal and Beierwaltes) 121
"The nonrandomness of chromosomal abnormalities: Association of trisomy 18 and Down's syndrome" (Hecht, et al.) 121
"Somatic mutation and chronic disease" (Burnet) 121
"Schizophrenia as a genetic morphism" (Huxley, et al.) 121

No. 3 (September)

FRANZ J. KALLMANN, 1897–1965, L. Erlenmeyer-Kimling, Arthur Falek, Lissy F. Jarvik, John D. Rainer, and Diane Sank 123
FERTILITY AND FAMILY PLANNING AMONG NONWHITE MARRIED COUPLES IN THE UNITED STATES, Arthur A. Campbell 124
ON THE GENETICS OF "SCHIZOPHRENIA," Arnold R. Kaplan 132
DIFFERENTIAL FERTILITY IN RURAL HINDU COMMUNITY: A SAMPLE SURVEY OF THE RURAL UTTAR PRADESH, INDIA, G. B. Saxena 137
CONGENITAL MALFORMATIONS AND SEASON OF BIRTH: A BRIEF REVIEW, John C. Bailar, III, and Joan Gurian 146
THE CHANGING PATTERN OF POPULATION CONCENTRATION IN INDIAN CITIES, S. Mitra 154
BRIEF REPORT
JEWS, GENETICS AND DISEASE, R. H. Post 162
COMMUNICATION
A NOTE ON OSBORN'S "EXCESS AND UNWANTED FERTILITY," Edward Pohlman 165
BOOK REVIEWS, Clyde V. Kiser, Book Review Editor
"ANIMAL GENETICS" (Hutt), George W. Woolley 167
"INTERNATIONAL POPULATION CONFERENCE—CONGRÈS INTERNATIONAL DE LA POPULATION, OTTAWA" (IUSSP), Karol J. Krótki 168
"PROCEEDINGS OF THE 34TH SESSION, OTTAWA, 1963: *Bulletin of the International Statistical Institute*, Volume XL, Book 1, Toronto, 1964" (ISI), Karol J. Krótki 170
"THE CONCEPT OF RACE" (Montagu, ed.), John F. Kantner 172
"PREGNANCY, CONCEPTION AND HEREDITY" (Weiser), John M. Opitz 174
PERIODICAL ABSTRACTS
GENETICS, Gordon Allen 177
"The Problem of Heterozygosity for Glucose-6-phosphate Dehydrogenase Deficiency" (Tönz) 177
"Detection of Hereditary Angioneurotic Edema by Demonstration of a Reduction in the Second Component of Human Complement" (Austen and Sheffer) 177
"Lactase Deficiency in the Adult: A Common Occurrence" (Cuatrecasas, et al.) 177
"Familial Fibrocystic Pulmonary dysplasia: Observations on one family," (Koch) 178
"Male and female recombination fractions for the nail-patella: ABO linkage in man" (Renwick and Schulze) 178
"Differential fertility in population genetics models" (Bodmer) 178
"Genetics and geography in Tinos" (Roberts, et al.) 178
"Parental age and malformations" (Milham, Jr., and Gittelsohn) 178
"Effects of father's age on the risk of child handicap or death" (Newcombe and Tavendale) 179
"Down's syndrome at young maternal ages: Chromosomal and family studies" (Day and Wright) 179
"Identification of the mongolism chromosome by DNA replication analysis" (Yunis, et al.) 179
"The beginning and the terminal stages of DNA synthesis of human cells with an XXXXY constitution" (Hsu and Lockhart) 179
"Hybrid cells derived from mouse and man: Artificial heterokaryons of mammalian cells from different species" (Harris and Watkins) 180

Contents

No. 4 (December)

RANDOM AND NONRANDOM INBREEDING, Gordon Allen 181

MEASUREMENT OF INBREEDING FROM THE FREQUENCY OF MARRIAGES BETWEEN PERSONS OF THE SAME SURNAME, James F. Crow and Arthur P. Mange 199

INBREEDING IN SMALL HUMAN POPULATIONS, Kenneth Morgan and J. N. Spuhler 204

MALE ATTITUDES TOWARD FAMILY LIMITATION IN EAST PAKISTAN, Mohiuddin Ahmed and Fatema Ahmed 209

DIFFERENTIAL MORALITY IN ISRAEL BY SOCIOECONOMIC STATUS, H. V. Muhsam 227

STUDIES OF FERTILITY AND FAMILY LIMITATION IN TAIWAN, Ronald Freedman and John Y. Takeshita 233

COMMUNICATION

A NOTE ON THE "TEST OF SIGNIFICANCE OF INTERVALS BETWEEN CONFINEMENTS OF DIFFERENT BIRTH ORDERS," P. P. Talwar 251

BOOK REVIEWS, Clyde V. Kiser, Book Review Editor

"HUMAN BEHAVIOR—AN INVENTORY OF SCIENTIFIC FINDINGS" (Berelson and Steiner), Helen G. Hammons 254

"HEREDITY AND THE NATURE OF MAN" (Dobzhansky), Frederick Osborn 255

"TEACHING GENETICS" (Darlington and Bradshaw, eds.), Louis Levine 257

"POPULATION DYNAMICS: CAUSES AND CONSEQUENCES OF WORLD DEMOGRAPHIC CHANGE" (Thomlinson), Karl E. Taeuber 258

"ADVANCES IN PLANNED PARENTHOOD" (Sobrero and Lewit, eds.), M-Francoise Hall 260

PERIODICAL ABSTRACTS

GENETICS, Gordon Allen

"The future role of the health department in medical genetics" (Anderson and Bannerman) 263

"Analysis of data from a system of assessment of the gonadal radiation does during radiographic procedures" (Duggan and Olde) 263

"A commentary on multiple screening for aminoacidopathies in the newborn infant" (Scriver, et al.) 263

"The inheritance of liability to certain diseases estimated from the incidence among relatives" (Falconer) 263

"The genetics of a common Indian digital abnormality" (Ray and Haldane) 264

"Segregation of the Ellis—van Creveld syndrome as analyzed by the first appearance method" (Li) 264

"Hurler's syndrome: Demonstration of an inherited disorder of connective tissue in cell culture" (Danes and Bearn) 264

"Idiopathic haemosiderosis" (Ploem, et al.) 264

"Innate abilities, one or many? A new method and some results" (Vandenberg) 265

"Individual differences in discrimination learning in infants" (Janos) 265

"Morphology and DNA synthesis in a ring-shaped sex chromosome of a child with Turner's syndrome" (Pfeiffer, et al.) 265

"Cytogenetics of Down's syndrome (mongolism) III. Frequency of interchange trisomics and mutation rate of chromosome interchanges" (Polani, et al.) 265

INDEX TO VOLUME 12 OF EUGENICS QUARTERLY 267
